## 1. Introduction

Sportdata has introduced a new way of online sport competitions called "eTournament". eTournaments completely transform the way of competing in Martial Arts Tournaments. Unlike traditional tournaments, eTournaments makes competing simpler, easier, and cost effective. Join from any place on this planet, without travel and accommodation costs. Compete against professional and amateur athletes from all around the world and improve your skills.

To accommodate time constraints participants have to face because of school or job we will try a more flexible approach regarding the recording of the videos.

We will only use one match code for our "Sportdata e-Tournament World Series - Kata | Kumite #5". This implies that the match code will not change for each round and videos for the whole event can optionally be recorded at once.

The match code will be published approximately two weeks before the start of the event to give all participants enough time (including weekends) to record their videos.
